## ONKYO INTRODUCES C-30 CD PLAYER, EXPANDING THE STRIKING NEW ICON SERIES HI-FI LINEUP

**July 29, 2025 (INDIANAPOLIS, IN)** — Onkyo®, an innovative premium audio solution provider, is pleased to announce a welcome addition to its all-new **Icon Series** lineup: the **C-30 High-Performance CD Player**, designed for music lovers seeking a premium, solid playback solution for their CD collections.

The C-30 Hi-Fi Grade CD Player delivers outstanding performance and value in a refined, audiophile-grade design, retailing at just \$349. Engineered for discerning listeners, it features **Onkyo's exclusive VLSC (Vector Linear Shaping Circuit)**—a proprietary technology that removes pulse noise from the signal path using advanced algorithms. The result is a **clean, distortion-free analog output** from its premium 24-bit/192kHz DAC, revealing every nuance of your music with breathtaking clarity.

With an impressive **107 dB signal-to-noise ratio**, the C-30 offers exceptionally quiet backgrounds and richly detailed audio. A **high-precision ±10PPM clock** ensures remarkable timing accuracy and a focused, stable stereo image, elevating your listening experience to true high-fidelity standards.

Engineered for exceptional sonic purity, the C-30 boasts a **vibration-resistant, blast-finished aluminum** front panel designed to reduce resonance and deliver cleaner playback. On the rear panel, Hi-Fi-grade RCA, optical, and digital coaxial outputs ensure effortless integration with a variety of premium audio systems.

Compatible with standard CDs, CD-Rs, and CD-RWs, the C-30 also supports MP3 and WMA file playback, giving you versatile access to your entire music collection—always with uncompromising sound quality.

**Explore the all-new Onkyo Icon Series** — a masterful high-fidelity Hi-Fi lineup that seamlessly blends cutting-edge technology with impeccably refined modern design. Unveiled at CES 2025 and launching this October, it sets a new standard for premium audio excellence. Crafted for discerning audiophiles, the Icon Series delivers powerful, ultra-pure sound from sleek, contemporary chassis engineered to house advanced technologies for uncompromising performance.

The **Icon Series** features the Icon A-50 2-Channel Integrated Amplifier, Icon P-80 2-Channel Network Pre-Amplifier, and Icon M-80 2-Channel Power Amplifier. Each model is offered in your choice of elegant silver or bold black finishes, perfectly complementing any high-end listening environment.

The **Icon A-50** is a Class AB integrated 2-channel stereo amplifier delivering 110W at 8 ohms (20Hz~20kHz THD 0.07%) and 180W at 4 ohms (1kHz THD 0.7%). Outputs include RCA, optical, USB-A, and phono (MM/MC). It comes with DIRAC Limited room correction—with an optional paid Full Band upgrade—and retails for \$1,599.

The **Icon P-80** is a 2-channel network pre-amplifier featuring RCA, optical, USB-A, phono (MM/MC), and XLR outputs. It supports Wi-Fi and Bluetooth streaming, is Roon Ready, and includes DIRAC Limited with paid upgrades for Full Band and bass control. The unit has a removable power cord and retails for \$1,999.

The **Icon M-80** is a Class AB 2-channel Hi-Fi power amplifier delivering 130W at 8 ohms (20Hz~20kHz THD 0.07%) and 200W at 4 ohms (1kHz THD 0.7%). It features XLR inputs, analog volume unit meters, and a removable power cord. The MSRP is \$1,999.

**The all-new Onkyo Icon Series goes beyond sleek aluminum and glass meters—delivering high-current, high-speed, high-resolution performance that sets a new standard in audio.** Backed by nearly 80 years of audio innovation, it's built for audiophiles who demand full-range sound and next-generation technology.
